## • PERSONAL STATEMENT

Hi, I'm Aditya, a passionate frontend developer with a strong command of various programming languages. My goal is to bring creative and functional designs to life, ensuring a seamless user experience. Proficient in HTML, CSS, and JavaScript, I leverage these core technologies to build responsive and interactive websites. Experienced in using front-end frameworks such as React and Angular to develop scalable and efficient applications. Well-versed in version control systems like Git to collaborate seamlessly with cross-functional teams. Familiar with UX/UI principles, I focus on creating designs that not only look good but also prioritize usability.

## • Projects

- **Portfolio: Make Portfolio website using HTML, CSS and JAVASCRIPT.** 📄 [Portfolio link](#)
  - Designed and developed a dynamic portfolio website utilizing HTML, CSS, and JavaScript. The website showcases my skills, projects, and achievements in a visually appealing and user-friendly manner.
  - Implemented responsive design principles to ensure optimal viewing across various devices, demonstrating a keen understanding of front-end technologies.
  - Incorporated interactive elements using JavaScript to enhance user engagement. This project not only demonstrates technical proficiency but also reflects a commitment to creating a professional online presence.
- **Amezon\_Clone: Make Amazon\_clone website using HTML, CSS and JAVASCRIPT.** 📄 [Amazon\\_Clone link](#)
  - Designed and implemented a full-scale Amazon clone website using HTML, CSS, and JavaScript.
  - Demonstrated proficiency in front-end technologies to create a user-friendly and responsive e-commerce platform.
  - Implemented key features such as product listings, user authentication, and dynamic cart functionalities.
  - Applied best practices in web development to ensure an intuitive and visually appealing user experience.
  - This project not only showcased technical skills but also demonstrated a keen understanding of modern web development principles.
